

**3<sup>RD</sup> FRIDAYS**

**Sustainable Film Series**

January 20 - 7:00 p.m.

**"Supersize Me"**

Director Morgan Spurlock takes a hilarious and often terrifying look at the effects of fast food on the human body, using himself as the proverbial guinea pig. For one month, Spurlock eats nothing but McDonald's fare.

This is a chance to review this sometimes disgusting film and learn what our fast food and processed foods are doing to our bodies. Discussion to follow film.
